

PRODUCT DATA SHEET

Rabbit Anti-Mouse IgG HRP For IP

CATALOG NUMBER: BS12479

QUANTITY: 100ul 500ul

DESCRIPTION: Affinity purified Rabbit anti-Mouse IgG, Peroxidase conjugated.

PURIFICATION: The antibody is isolated from cell culture by immunoaffinity chromatography using protein A+G coupled to Sepharose beads.

APPLICATIONS: IP: 1:500-1:2,000.
Optimal working dilutions must be determined by end user.

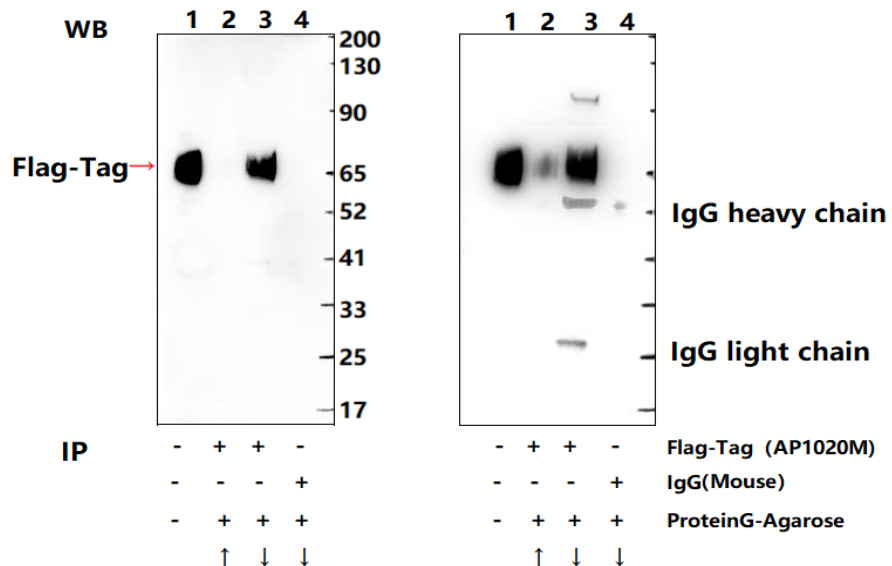

Buffer: 0.01M Sodium Phosphate, 50% glycerol, 1% BSA, pH 7.4.
Preservative: 0.05% Proclin 300

STORAGE: Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze-thaw cycles. Prepare working dilution fresh each day.

Expiration date: One year from date of reconstitution.

WARNING: Use of sodium azide as a preservative will substantially inhibit the enzyme activity of HRP.

DATA:

second antibody: BS12479 (Rat Anti-Mouse IgG HRP For IP) BS12478 (Goat Anti-Mouse IgG (H+L) HRP)
