

DGKZ polyclonal antibody

Catalog: BS72885

Host: Rabbit

Reactivity: Human, Mouse

BackGround:

The protein encoded by this gene belongs to the eukaryotic diacylglycerol kinase family. It may attenuate protein kinase C activity by regulating diacylglycerol levels in intracellular signaling cascade and signal transduction. Alternative splicing occurs at this locus and multiple transcript variants encoding distinct isoforms have been identified.

Product:

1mg/ml in PBS, 50% glycerol, pH7.3.

Molecular Weight:

120kDa

Swiss-Prot:

Q13574

Purification&Purity:

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE).

Applications:

WB 1:500 - 1:2000

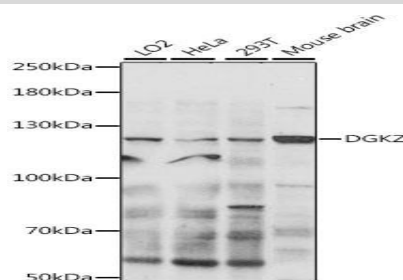

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

Specificity:

DGKZ polyclonal antibody detects endogenous levels of DGKZ protein.

DATA:

Western blot analysis of extracts of various cell lines, using DGKZ antibody.

Note:

For research use only, not for use in diagnostic procedure.
