

APRT polyclonal antibody

Catalog: BS7588

Host: Rabbit

Reactivity: Human, Mouse, Rat

Background:

Adenine phosphoribosyltransferase belongs to the purine/pyrimidine phosphoribosyltransferase family. A conserved feature of this gene is the distribution of CpG dinucleotides. This enzyme catalyzes the formation of AMP and inorganic pyrophosphate from adenine and 5-phosphoribosyl-1-pyrophosphate (PRPP). It also produces adenine as a by-product of the polyamine biosynthesis pathway.

Product:

1mg/ml in PBS with 0.1% Sodium Azide, 50% Glycerol.

Molecular Weight:

~19 kDa

Swiss-Prot:

P07741

Purification&Purity:

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE).

Applications:

WB: 1:500~1:2000

IHC: 1:50~1:200

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

Specificity:

APRT polyclonal antibody detects endogenous levels of APRT protein.

DATA:

Western blot analysis of APRT polyclonal antibody

Immunohistochemistry (IHC) analysis of APRT polyclonal antibody in paraffin-embedded Human Thyroid Cancer tissue.

Note:

For research use only, not for use in diagnostic procedure.
