

ZRSR2 polyclonal antibody

Catalog: BS32263

Host: Rabbit

Reactivity: Human

BackGround:

U2 small nuclear ribonucleoprotein auxiliary factor 35 kDa subunit-related protein 2: Pre-mRNA-binding protein required for splicing of both U2- and U12-type introns. Selectively interacts with the 3'-splice site of U2- and U12-type pre-mRNAs and promotes different steps in U2 and U12 intron splicing. Recruited to U12 pre-mRNAs in an ATP-dependent manner and is required for assembly of the pre-spliceosome, a precursor to other spliceosomal complexes. For U2-type introns, it is selectively and specifically required for the second step of splicing
