

DIP2A polyclonal antibody

Catalog: BS32380

Host: Rabbit

Reactivity: Human

BackGround:

Disco-interacting protein 2 homolog A: Catalyzes the de novo synthesis of acetyl-CoA in vitro (By similarity). Promotes acetylation of CTTN, possibly by providing the acetyl donor, ensuring correct dendritic spine morphology and synaptic transmission (By similarity). Binds to folistatin-related protein FSTL1 and may act as a cell surface receptor for FSTL1, contributing to AKT activation and subsequent FSTL1-induced survival and function of endothelial cells and cardiac myocytes

Product:

1mg/ml in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.

Molecular Weight:

~170 kDa

Swiss-Prot:

Q14689

Purification&Purity:

The antibody was purified by immunogen affinity chromatography.

Applications:

WB (1/500 - 1/1000)

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

Specificity:

Recognizes endogenous levels of DIP2A protein.

DATA:

Western blot analysis of MCT2 expression in HepG2 (A), HL60 (B), mouse kidney (C), rat brain (D) whole cell lysates.

Note:

For research use only, not for use in diagnostic procedure.
