

SPRR1B polyclonal antibody

Catalog: BS32499

Host: Rabbit

Reactivity: Human

BackGround:

Cornifin-B: Cross-linked envelope protein of keratinocytes. It is a keratinocyte protein that first appears in the cell cytosol, but ultimately becomes cross-linked to membrane proteins by transglutaminase. All that results in the formation of an insoluble envelope beneath the plasma membrane. Can function as both amine donor and acceptor in transglutaminase-mediated cross-linkage
