

PRODUCT DATA SHEET

Bioworld Technology, Inc.

UBXN6 polyclonal antibody

Catalog: BS32751

Host: Rabbit

Reactivity: Human, Mouse

BackGround:

UBX domain-containing protein 6: May negatively regulate the ATPase activity of VCP, an ATP-driven segregase that associates with different cofactors to control a wide variety of cellular processes. As a cofactor of VCP, it may play a role in the transport of CAV1 to lysosomes for degradation. It may also play a role in endoplasmic reticulum-associated degradation (ERAD) of misfolded proteins. Together with VCP and other cofactors, it may play a role in macroautophagy, regulating for instance the clearance of damaged lysosomes.

Product:

1mg/ml in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.

Molecular Weight:

~49.8 kDa

Swiss-Prot:

Q9BZV1

Purification&Purity:

The antibody was purified by immunogen affinity chromatography.

Applications:

WB (1/500 - 1/1000), IHC (1/50 - 1/200)

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long

term. Avoid freeze-thaw cycles.

Specificity:

Recognizes endogenous levels of UBXN6 protein.

DATA:

Western blot analysis of SAA2 expression in HEK293 (A) whole cell lysates.

Note:

For research use only, not for use in diagnostic procedure.
