

PRODUCT DATA SHEET

Bioworld Technology, Inc.

C17orf104 polyclonal antibody

Catalog: BS33416

Host: Rabbit

Reactivity: Human, Mouse

BackGround:

Meiosis-specific coiled-coil domain-containing protein MEIOC: Is required for meiosis completion in both male and female germ cells. Confers stability to numerous meiotic mRNAs in gonads allowing proper initiation and progression into meiosis prophase I. The function may involve YTHDC2 and is independent of induction by retinoic acid (RA). Maintains an extended meiotic prophase I by properly promoting the transition from a mitotic to a meiotic cell cycle program by binding transcripts through its interaction with YTHDC2 that regulate the mitotic cell cycle

Product:

1mg/ml in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.

Molecular Weight:

~108 kDa

Swiss-Prot:

A2RUB1

Purification&Purity:

The antibody was purified by immunogen affinity chromatography.

Applications:

WB (1/500 - 1/1000)

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

Specificity:

Recognizes endogenous levels of C17orf104 protein

DATA:

Note:

For research use only, not for use in diagnostic procedure.
