

PRODUCT DATA SHEET

Bioworld Technology, Inc.

TTC30B polyclonal antibody

Catalog: BS34405

Host: Rabbit

Reactivity: Human, Mouse, Rat

BackGround:

Intraflagellar transport protein 70B: Required for polyglutamylation of axonemal tubulin. Plays a role in anterograde intraflagellar transport (IFT), the process by which cilia precursors are transported from the base of the cilium to the site of their incorporation at the tip

Product:

1mg/ml in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.

Molecular Weight:

~76.1 kDa

Swiss-Prot:

Q8N4P2

Purification&Purity:

The antibody was purified by immunogen affinity chromatography.

Applications:

WB (1/500 - 1/1000)

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long

term. Avoid freeze-thaw cycles.

Specificity:

Recognizes endogenous levels of TTC30B protein

DATA:

Western blot analysis of OPN1MW expression in Hela (A), HepG2 (B) whole cell lysates.

Flow cytometric analysis of HepG2 cells using Anti-OPN1MW Antibody. The cells were fixed with 2% paraformaldehyde (10 min) and then permeabilized with 90% methanol for 10 min. The cells were incubated in 2% bovine serum albumin to block non-specific protein-protein interactions followed by the antibody at 37 °C for 60 min. The secondary antibody Goat Anti-Rabbit IgG (H&L) - AF488 was incubated at 37 °C for 40 min. Isotype control antibody (blue line) was used under the same condition.

Note:

For research use only, not for use in diagnostic procedure.
