

PRODUCT DATA SHEET

Bioworld Technology, Inc.

FUOM polyclonal antibody

Catalog: BS34766

Host: Rabbit

Reactivity: Human, Mouse

BackGround:

Fucose mutarotase: Involved in the interconversion between alpha- and beta-L-fucoses. L-Fucose (6-deoxy-L-galactose) exists as alpha-L-fucose (29.5%) and beta-L-fucose (70.5%), the beta-form is metabolized through the salvage pathway. GDP-L-fucose formed either by the de novo or salvage pathways is transported into the endoplasmic reticulum, where it serves as a substrate for N- and O-glycosylations by fucosyltransferases. Fucosylated structures expressed on cell surfaces or secreted in biological fluids are believed to play a critical role in cell-cell adhesion and recognition processes

Product:

1mg/ml in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.

Molecular Weight:

~16.8 kDa

Swiss-Prot:

A2VDF0

Purification&Purity:

The antibody was purified by immunogen affinity chromatography.

Applications:

WB (1/500 - 1/1000)

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

Specificity:

Recognizes endogenous levels of FUOM protein

DATA:

Western blot analysis of CCDC144A expression in human brain (A), HL60 (B) whole cell lysates.

Note:

For research use only, not for use in diagnostic procedure.
