

PRODUCT DATA SHEET

Bioworld Technology, Inc.

CARD16 polyclonal antibody

Catalog: BS35535

Host: Rabbit

Reactivity: Human

BackGround:

Caspase recruitment domain-containing protein 16: Caspase inhibitor. Acts as a regulator of procaspase-1/CASP1 activation implicated in the regulation of the proteolytic maturation of pro-interleukin-1 beta (IL1B) and its release during inflammation. Inhibits the release of IL1B in response to LPS in monocytes. Also induces NF-kappa-B activation during the pro-inflammatory cytokine response. Also able to inhibit CASP1-mediated neuronal cell death, TNF-, hypoxia-, UV-, and staurosporine-mediated cell death but not ER stress-mediated cell death. Acts by preventing activation of caspases CASP1 and CASP4, possibly by preventing the interaction between CASP1 and RIPK2

Product:

1mg/ml in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.

Molecular Weight:

~22.6 kDa

Swiss-Prot:

Q5EG05

Purification&Purity:

The antibody was purified by immunogen affinity chromatography.

Applications:

WB (1/500 - 1/1000)

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

Specificity:

Recognizes endogenous levels of CARD16 protein

DATA:

Western blot analysis of TGF beta 4 expression in HT29 (A), mouse spleen (B), rat pancreas (C) whole cell lysates.

Note:

For research use only, not for use in diagnostic procedure.
