

**CCDC159 polyclonal antibody**

Catalog: BS35828

Host: Rabbit

Reactivity: Human, Mouse

BackGround:

Coiled-coil domain-containing protein 159: Functions during spermatid development; may participate in the centrosome reduction procedure of spermatids and is required for the formation of the connecting piece/sperm head-tail coupling apparatus (HTCA) and the correct and tight attachment of the flagellum to the nuclear envelope

Product:

1mg/ml in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.

Molecular Weight:

~33.7 kDa

Swiss-Prot:

P0C7I6

Purification&Purity:

The antibody was purified by immunogen affinity chromatography.

Applications:

WB (1/500 - 1/1000)

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

Specificity:

Recognizes endogenous levels of CCDC159 protein

DATA:

Western blot analysis of Aurora A expression in SW480 (A), COS7 (B) whole cell lysates.

Immunofluorescent analysis of Aurora A staining in HeLa cells. Formalin-fixed cells were permeabilized with 0.1% Triton X-100 in TBS for 5-10 minutes and blocked with 3% BSA-PBS for 30 minutes at room temperature. Cells were probed with the primary antibody in 3% BSA-PBS and incubated overnight at 4 °C in a humidified chamber. Cells were washed with PBST and incubated with a AF488-conjugated secondary antibody (green) in PBS at room temperature in the dark.

Note:

For research use only, not for use in diagnostic procedure.
