Inhibin beta B polyclonal antibody

Catalog: BS66302 Host: Rabbit Reactivity: Human, Mouse, Rat, Bovine, Chicken, Pig, Sheep, Zebrafish

BackGround:

Inhibins and activins inhibit and activate, respectively, the secretion of follitropin by the pituitary gland. Inhibins/activins are involved in regulating a number of diverse functions such as hypothalamic and pituitary hormone secretion, gonadal hormone secretion, germ cell development and maturation, erythroid differentiation, insulin secretion, nerve cell survival, embryonic axial development or bone growth, depending on their subunit composition. Inhibins appear to oppose the functions of activins.

Activin B is a dimer of alpha and beta-B that plays a role in several essential biological processes including embryonic development, stem cell maintenance and differentiation, haematopoiesis, cell proliferation and wound healing.

Inhibin B is a dimer of alpha and beta-B that plays a crucial role in the regulation of the reproductive system by inhibiting the secretion of follicle-stimulating hormone (FSH) from the anterior pituitary gland. Thereby, maintains reproductive homeostasis in both males and females. Acts as a more potent suppressor of FSH release than inhibin A (By similarity).

Product:

1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2

Molecular Weight:

50kDa

Swiss-Prot:

P09529

Purification&Purity:

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE).

Applications:

WB,1:500 - 1:1000|IF/ICC,1:50 - 1:200

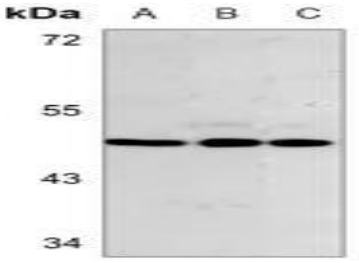

Storage&Stability:

Store at 4℃ short term. Aliquot and store at -20℃ long term. Avoid freeze-thaw cycles.

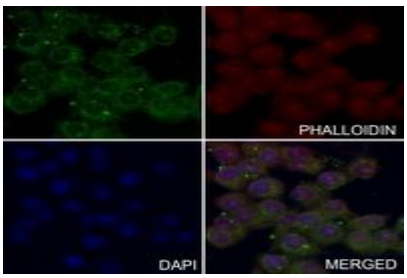

Specificity:

Inhibin beta B polyclonal antibody detects endogenous levels of Inhibin beta B protein.

DATA:

Western blot analysis of Inhibin beta B expression in Hela (A), mouse testis (B), rat testis (C) whole cell lysates.

Immunofluorescent analysis of Inhibin beta B staining in LO2 cells.

Note:

For research use only, not for use in diagnostic procedure.
