

Armenian Hamster IgG Isotype Control

Catalog: MB30020

Host: Armenian Hamster

Reactivity:

BackGround:

Armenian hamster IgG is an immunoglobulin isotype used as an isotype control antibody in flow cytometry and other immunoassays. It serves as a negative control matching the host species and isotype of primary antibodies raised in Armenian hamsters.

Product:

Armenian Hamster IgG. 1mg/ml in PBS, pH 7.3, and 0.02% sodium azide.

Molecular Weight:

~150 kDa (intact IgG)

Swiss-Prot:**Purification&Purity:**

The antibody was purified by affinity chromatography.

Applications:

IF/ICC (1/50 - 1/200), FC (1/500 - 1/2000)

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

Specificity:**DATA:**

Immunohistochemical analysis of STMN1 staining in human tonsil formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

Note:

For research use only, not for use in diagnostic procedure.
