## PRODUCT SPECIFICATIONS

|               |                                                                                                         |
|---------------|---------------------------------------------------------------------------------------------------------|
| Product Name  | Human HABP antibody                                                                                     |
| Catalog#      | NBP2151                                                                                                 |
| Source        | Mouse                                                                                                   |
| Format        | Monoclonal antibody                                                                                     |
| Formulation   | Supplied as a 0.22 µm filtered solution of PBS, pH7.4                                                   |
| Specificity   | Human Hyaluronic Acid Binding Protein(HABP)                                                             |
| Isotype       | IgG1                                                                                                    |
| Concentration | Lot specific(±20%)                                                                                      |
| Purification  | Protein A or G affinity purification chromatography                                                     |
| Purity        | ≥90% as determined by SDS-PAGE                                                                          |
| Appearance    | Transparent clear                                                                                       |
| Application   | Elisa, Lateral flow, Chemiluminescence or other applications                                            |
| Preservative  | 0.05% Proclin 300                                                                                       |
| PI            | NA                                                                                                      |
| Shipping      | The product is shipped on dry ice pack. Upon receipt, store it immediately at -20°C or lower.           |
| Storage       | Short term (up to 7 days) store at 2–8°C. Long term, store at -20°C. Avoid multiple freeze/thaw cycles. |
| Expiration    | Store at -20°C for three years                                                                          |

FOR RESEARCH OR FURTHER MANUFACTURING USE ONLY
